MASTER SAHIL

FULL STACK DEVELOPER

7882mastersahil@gmail.com | +91 9033352334 | Adajan, Surat, Gujarat. 395009

GitHub   Portfolio   LinkedIn

Profile Summary

Innovative Full Stack Developer specializing in building scalable web and mobile applications using React, React Native, Node.js, and MongoDB. Proven expertise in designing responsive front-end interfaces and engineering robust backend REST APIs with secure JWT authentication. Experienced in enhancing user engagement by integrating modern AI APIs and developing real-time interactive chatbots.

Professional Skills

- **Frontend:** HTML5, CSS3, JavaScript, React (Library)
- **Backend:** Node.js, Express.js, REST APIs, CRUD
- **Database & Storage:** MongoDB, Firebase, NoSQL
- **Mobile Development:** React Native, Expo

Relevant Skills

- **Tools:** Git & GitHub, VS Code, Postman, Vercel
- **Programming & Tech:** C, C++, npm, DSA
- **AI & Automation:** AI APIs, Generative AI, Chatbots
- **Soft Skills:** Teamwork, Communication, Adaptability

Education

Bachelor of Computer Applications   *2024 - 2027 (Expected)*

Specializing in software development and full-stack technologies. Vidhyadeep University.

Certifications

Full Stack Development Course   *2024 - Present*

Focused on MERN stack, database design, JWT authentication, and production deployment workflows.

Experience

CodeXIntern - Jr. Frontend Developer   *02-12-2024 - 27-12-2024*

Replicated a pixel-perfect clone using HTML, CSS, JavaScript, following modern UI/UX standards.

Web Development Projects

Full Stack Credentials Vault

Built a secure full-stack credential management system with authentication and protected routes.
Applied complete CRUD operations for storing passwords, links, and media securely.

- Authentication
- REST APIs
- Cloudinary
- MongoDB
- NoSQL
- Vercel Deployment
- Render Deployment
- Preview
- GitHub

AI Chatbot Web Application

Developed an interactive AI chatbot with real-time API integration and dynamic UI rendering.
Focused on responsive design and seamless conversational user experience.

- API Integration
- Axios
- Responsive UI
- React
- CSS
- Vercel Deployment
- State Management
- Preview
- GitHub

Vault Mobile App (React Native)

Built a cross-platform mobile vault application with secure authentication and data handling.
Integrated cloud storage and optimized mobile UI/UX with shared backend architecture.

- React Native
- Authentication
- REST APIs
- Axios
- Android & iOS
- Supabase
- Expo
- Media Upload
- Preview
- GitHub

E-SHOP – MERN E-Commerce Platform

Created a full-featured e-commerce platform with secure JWT authentication and admin controls.
Implemented product management, cart system, and scalable REST API architecture.

- Admin Dashboard
- Product & Cart Management
- MERN Stack
- Multer
- Role-Based Access
- JWT Authentication
- Preview
- GitHub

Interests

- Mobile App Development
- Learning New Technologies
- AI-Based Projects
